1 INTRODUCTION

1.1 Background

The Transfers and Re-registration Industry Group (TRIG), a collaboration of 10 Industry trade bodies and representatives of individual firms worked to deliver a cross-industry solution to the challenge of improving customer experiences when moving money between institutions. Their work focused on developing a framework of best practice standards and improving customer communication.

In September 2018, TRIG requested STAR provide a governance solution to deliver long term improvements to the customer's experience of transferring savings and investments between companies.

The initial objective of STAR is to deliver MI that allows the industry to create a baseline that future improvements can be measured against whilst implementing an Accreditation process that will reflect the performance of individual firms within the Transfer process.

1.1.1 Document Purpose

This document is intended to outline the STAR Core MI Reporting Requirements for the Personal Pensions, SIPP & SSAS SLA Product Group.

It also provides details of these measures, the reporting mechanism along with additional definitions.

1.2 Core MI Reporting

The objective of the Core MI Reporting is to allow for the Accreditation of STAR members to reflect their performance within the Transfer Journey.

Each SLA Product Group has been given individual consideration by the STAR Implementation Group.

1.2.1 Reporting Scope

Core MI Reporting for the Personal Pensions/SIPP and SSAS SLA Product Group will initially focus its requirements on the reporting of Electronic Cash Transfers. The Reporting of Re-Registrations, Manual Transfers will be included when the Group feel that there is sufficient data available to report on them.

Electronic Transfers are defined as transfers initiated electronically using an electronic messaging set (not, for example by email) at a portfolio level or asset manager transfer instructions received electronically.

It is noted that electronic portfolio transfers may include some manual elements in the transfer of underlying assets.

1.2.2 Product Scope

The In-Scope products are listed below:

Personal Pensions, SIPP & SSAS
Personal Pensions
Group Personal Pensions
SIPP
Group SIPP
Stakeholder
Group Stakeholder
SSAS
Section 32

1.2.2.1 Exclusions

Transfers of large Schemes which are treated as a Project distinct from the normal transfer process are not included within the scope.

1.2.3 Process Scope

The Transfer Process for the Personal Pensions, SIPP and SSAS Core MI is defined as being from the point the Acquiring Party (AP) receives a completed Application from the customer, to the date the AP confirms receipt of the monies and Transfer Instruction (Funds Received message is sent).

1.2.4 Reporting Period

STAR MI reporting is captured monthly in arrears reflecting transfer activity performed within the previous calendar month.

STAR MI submission is due on or before the last working day of each calendar month for activity in the previous calendar month.

For example, **September** activity would be calculated and reported to STAR by the **29th of October** as the 31st is a Sunday. The MI Reports will be submitted by secure upload to the STAR portal monthly by the due date.

STAR will publish MI submission due dates within the members portal, MI contacts will be notified near the closing date if your data has not been submitted.

1.2.5 Organisational Reporting Level

Firms should report at the Organisational/Brand level that they wish to be accredited against, incorporating each STAR SLA Product Group they wish to report on (e.g. Occupational Pension, Personal Pension, Asset Manager or ISA/GIA).

1.2.6 Reporting Method

The monthly MI submissions will be uploaded securely to the STAR portal by authorised users in a CSV or Excel format (See [Example](#) in Section 3).

A single reporting Message structure will be used across all of the SLA Product Groups.

2 MI DATA REQUIREMENTS

2.1.1 Reporting for the Personal Pensions, SIPP and SSAS SLA Product Group

It has been agreed that the information to be supplied and accredited against for Core MI should initially be for **Electronic Cash Transfers** processed through Origo only. Additional data sources may be accepted in future when the Implementation Group feel that there is sufficient data available to include them.

The data to be supplied is:

	Reported as	Start Date	End Date	Notes
Average Overall End to End Journey	Acquiring Provider	Application Received Date*	Funds Received Date	* Providers must ensure that this date reflects the date the Organisation received the completed Application.
Average Own Ceding Party Journey (Simple Transfers)	Ceding Provider	Activation (Transfer Request Received)	Funds Received Date	A “Simple Transfer” is identified by Origo as a Transfer without a delay or with a delay a reason not specified in the list of Complex Transfers below.
Average Own Ceding Party Journey (Complex Transfers)	Ceding Provider	Activation (Transfer Request Received)	Funds Received Date	A “Complex Transfer” is identified by Origo as a Transfer with a delay that has a reason of : <ul style="list-style-type: none"> • Awaiting Advice Certificate • Awaiting final premium • Awaiting income payment to apply • Awaiting outstanding info. • Awaiting retirement date • Awaiting trustee authorisation • Bankruptcy • Delivery of Risk Warnings • Disinvestment delay • Divorce • Earmarking • Exceeding LTA with/without protection • Pension sharing
Average Acquiring Party Journey	Acquiring Provider	Application Received Date	Transfer Request Issued	

This data will be submitted monthly and would be supported for accreditation purposes by the Supplementary Accreditation Data to be agreed by the Accreditation Steering Group.

2.1.2 Accreditation Reporting Capture Points and Calculations

Data should be captured for each individual transfer completed in the calendar month and used to calculate the overall position for reporting purposes.

2.1.2.1 Overall End to End Journey

The Overall End to End Journey is taken from the following Start and End points:

- START – AP receives Customer’s completed Application.
- END – Funds Received message sent by the Acquiring Party (AP).
- MEASUREMENT – The number of Calendar days elapsed between start and end points where the day of receipt is Day 1 and each further calendar day (business or non-business) is counted, to reflect the customer experience.

The Average will be reported in days rounded to one decimal point.

2.1.2.2 Ceding Party Journey

The Ceding Party (CP) Journey is taken from the following Start and End points:

- START – Valid Request to Transfer received (Activation).
- END – Funds Received message sent by the Acquiring Party (AP).
- MEASUREMENT – The number of Calendar days elapsed between start and end points where the day of receipt is Day 1 and each further calendar day (business or non-business) is counted, to reflect the customer experience.

The Average will be reported in days rounded to one decimal point.

2.1.2.3 Acquiring Party Journey Time

The AP Journey is taken from the following Start and End Points:

- START – AP receives Customer's completed Application.
- END – Instruction to proceed with Transfer sent to CP (Activation).
- MEASUREMENT – The number of Calendar days elapsed between start and end points where the day of receipt is Day 1 and each further calendar day (business or non-business) is counted, to reflect the customer experience.

The Average will be reported in days rounded to one decimal point.

2.1.3 Publication of Accreditation Data

The monthly Accreditation Data submitted to STAR will be shared quarterly with participating Organisations Only.

It is primarily gathered to inform the STAR Accreditation Process which awards organisations a STAR Rating, highlighting their individual performance within the Transfer & Re-Registration process.

Any Volume data supplied will not be shared beyond the STAR Delivery Team. This is supplied to allow STAR to calculate accurate aggregated average membership journey times.

2.2 Accreditation Reporting

Accreditation Reporting will require participating organisations to submit information that allows STAR to understand their performance within the Transfer Journey as an Acquiring and / or Ceding Provider.

This will ensure that an organisation is not held accountable for the under-performance of other parties within the transfer process.

In addition to Monthly reporting, additional information will be requested ahead of the Accreditation exercise. The Accreditation process is still being finalised, but the expectation is that the following details could be requested as part of the Accreditation or subsequent Appeals process:

1. % of total transfers for each STAR SLA Product Group reported.
2. % electronic cases reported.
3. Confirmation that STAR Customer Communication Principles have been followed.
4. Outliers / mitigating circumstances to be submitted to STAR.

3 REPORT STRUCTURE

The reporting file Structure is designed to be flexible. It can be used by an Organisation to report multiple brands and SLA Product Groups in a single file or allow each brand to report separately. You only report on the product type you submit data for, you do not need to report blank data for non-supported products.

3.1 Reporting File Layout

A single reporting Message structure will be used across all SLA Product Groups.

You only need report the Metrics that apply to you. Each row will contain:

	Group	Month	Year	Brand (Membership Reference)	Product Type	Metric	Sub Metric	Value
Format	5 characters ANNNN	MM	YYYY	8 characters ANNNNANN (First 5 Characters are the Group)	One of : • ISA • GIA • PSS • OCP • AM	One of : • EEJ • CPJ • APJ • AM1 • AM2 (Max 5 Characters for Full MI)	1 Character A(N) (Max 4 Characters for Full MI)	Numeric
